Lawyer Request

From: Ed Donegan 1015 W. William Cannon #105, Austin TX 78745 DynasticSuccessions@proton.me

I am an Austin author and political activist seeking an attorney to evaluate a documented pattern of assaults, threats, impersonation, housing disruption, property interference, and possible misconduct by private individuals or public officials.

I am also a police misconduct victim and a Kennedy assination witness as my coauthor Jen Moore (deceased) was. That a scheme of faked allegations against me (copy cat versions of something not try in the past either) are used to disrupt my life and legal, housing, publishing, and other servies and she and I document the slander campaing and fabricted evidence to disrupt our lives and publications.

> According to Ed Donegan's interpretation, the YouTube screenshot titled "508NonTexasDPSviewsNonFBIviewsUnveillingHistory.png" (Cold War Archive) depicts a user claiming to tell the Donegan family's story—a history of concealed identities arising from secret Cold War lives in the United States. Donegan interprets her statements as asserting that disclosure of those identities would help explain the assassination of President John F. Kennedy.
>
> The female YouTube poster of that video was Jen Moore a whistle-blower asserting powerfull interests placed inside law enforcement, counseling services, prosecutors offices, etc., had perfected weaponized false allegtions the were both in a sociallly motivated frame job of an anti-immigration activist and that sharing a more important historical motivation to encourage false allegations that harrassmen myself Jen Moore's coauthor on the Kennedy assination.
>
> Donegan further interprets the user as alleging that corrupt practices within the American court system, including proceedings involving children, have been used to damage his life and prevent him from bringing his account of the Kennedy assassination to public attention. According to Donegan, she also alleges that former counselors involved in his case in the Eastern District of Virginia presented false allegations to the courts as part of a campaign to harass and discredit him.
>
> This wording attributes the claims to Ed Donegan's interpretation and does not present the allegations as independently established facts [though is reaming death bed archived statement

> from his coauthor Jen Moore].
>
> "Jun 15, 2018 On my way to deliver the goods, the corruption inside the justice system and courts must stop" Jen Moore in The Great Unveiling.

When I aproached TJ Henry Law (including Jacob Cadena who proofs pro-se filings for TJ Henry) I approaced them suggesting 1) Child pornograpy was being manufactured. 2) This was done to sabotage me as I wrote of the Kennedy assination. That county official including Mark Gonzales were using identity theft in the legal system, the stolen identity of mine being associated with child porn. 3) That the use of the child porn was to sabotave me with the community, in housing, etc., 4) That Jen Moore a former police officer and whistle-blower with information that I was being framed under Color of Law was found dead while making allegations agaisnt those who (mis)represented me in legal and healthcare matters such as Tom Donegna, Lina Alathair, Jessica Aber, Penney Ashley and Louis Marcano, TJ Henry itself were in the system of frame-ups and identiy theft in the legal system some of that had occured on the property of the TJ Henry law offices. That Jessica Aber had setup with Mark Gonzales and ARC of Nothervirgina the redirection of trust funds into bankruptcy courts depletign it and other assets by fabrciated claims directed me, at me who was against illegal immigration into the USA but vilified as criminal to be harrased.

When they turned me down saying the could not accept child porn from a child porn producer (allegely me) I again emphasised the children planted near me were to discredit me, that thier familes were purusing false claims against through TJ Henry Law, and that someone who had been in the operation run by TJ Henry was found dead after making her allegations of fraud by TJ Henry that I was making too. Further, the police working with TJ Henry asserting my allegatoins gainst the fraud were "terrorism" in a mentally ill distrust of the police who WERE visiblly planting evidence later taken to TJ Henry with the "victims" who had planted themselves near me.

Because the turned down meetinbg with me or acceptign evidence I sued them in court twice PRO SE instead, and Mark Gonazale appoiunted them to represent me and who aggreed to the false allegation, not to represent me against the false allegatoins. Pro Se filing allow an attorney to be appointed. And the lawyers I was suign appointed themselves.

I am a JKF and Presidential History researcher and have experieanced all of this.

The Three-Ring Circus of Fraud Under Color of Law Lies Used to Target Truthers with Sabotage

Protection detials of politicians have sponsered these discrediting system used against investitgative journlists.

An Albtatros nears a Target. The Albatros will shadow the target of false allegations, reporting false allegations into homes, office places, social circles, etc., Preemption police agencies may for political reasons create a Neigborhood Watch whose true function is use of an under-cover operation fabricating false reports to property managers, the courts, to residents, or others. Sometimes an Identity Theif will fabricate a confession that wil also be circulated usually behind the back of the target of the false allegtions. Play actors *act* as though you are a person in miscondut and as fake victims act out being the moral victors and the Albatros around the Target's kneck before the community.

T "He has a cold case from years ago. He is threat to your community. You should incrementally terminate his lease or employment or even do so abruptly. There are as Jen Moore asserted many criminal acts (violations Conpsiracy Laws, political, social, and financial sabotoge of a Target.) Usage of it against an MK-Ultra whistle-blowers is done to destroy lives and incited paranoid lynch mobs, may burglaries, incited threats, and other intimidation false allegations brign about. Jen Moore who exposed the identity theft and money laundering in the eler abuse of myself Edward Pual Donegan.

This is a matter of genuine investigativion with investigators, and not those who are being a police asset, but one who researches police misconduct including sham investigations, planted evidence, and use of smears to discredit journalists and COINTELRPO targeting. There are wrongfull deaths (in the thousands) involved but it is more complicated than an ambulance driving away from an ordinary car crash scene headed to the hospital or mourge. Constitutional, historic, and political history is very much involved, few understand that kind of case, those that do watch too much TV and don';t understand the facts of my case. Still developing content on Truther, sending some out now, but I have SVGs and ULs in the works that may persaude more of the skeptics.

I have experienced incidents in which I believed that items had disappeared, unfamiliar items had appeared, or my computer or belongings had been altered while I was away. Standing alone, some incidents may appear minor, may have innocent explanations, or may be difficult to prove. I therefore do not ask counsel to accept every incident as established tampering. The history I am writing about really aproaches civil ware, the assasination of JFK and RFK by a moveming in the right wing of govermement operations, the downing of TWA 800 and UAL 553 being part of explicable resultant cover up, and the Pan Am Flight 103 Lockerbie crahs also have a related CIA agent on board. Some potential cover up operations are also asserted and of great magnitude. It is contested history. My family in the Kennedy Adminstration had close ties with those who might have been found in the White House an any gived during a classified briefing and later the same in the recent generation of equally highly placed administration and national security officials.

I believe my political speech may supply a motive for the conduct. I am not asking counsel to presume that every historical conclusion in my book is correct. I am asking whether retaliation can be investigated by

comparing publication dates, threats or statements referencing my work, identities of involved persons, official contacts, and the timing of adverse events.

My published work advances controversial conspiracy theories concerning intelligence agencies and political history. I understand that an attorney need not accept those theories as true. My narrower concern is that people may have regarded my speech as radical or objectionable and retaliated against me because of that perception.

I can provide witness names, photographs, messages, police or incident records where available, housing documents, dated publications, installers receipts, and other preserved materials relating to assaults, threats, break-ins, property interference, and housing disruption. The amount and quality of documentation differ from incident to incident. the wiring to my building has been cut, that I have undergone knife and other attacks, break-ins, death threats. Combining authorized apartment entry with unauthorized crimal activity is a form of breaking-and-entering. and those backing story of my family and the Cold War plans have experienced the same and worse.

Some attacks by includign thefts and other attacks have occured in public when I have been followed. These have in several cases come from grous of people who gave themselves their own alibies as to why they have chosen to bully me. These have seen to me a smoke-screen of peole expecting me to come along hoping to pick a fight.

The potentially decisive evidence specific to lease violatoins may be controlled by landlords, property-management companies, tenant-screening services, software vendors, or other third parties—not by myself. Some of them have acknowledged police connections. Frame jobs harrassing my use of the leased property have occured undermining the enforcability of my rights as access and use of other apartments to other residents to conduct those frauds including fabricated accoutns of me have occured. I think in some of the most series matters it seems circumstantial evidence from my accounts only and the compelled statements from some of the people involved and compelled access to the records would help the investigation.

My concern is that certain missing documents or identifying materials may later have been used to facilitate false records, identity misuse, adverse rental information, unauthorized transactions, or other conduct outside the apartment. If that connection can be documented, events that initially appeared to be minor interference may become relevant evidence of access, preparation, identity theft, or a broader course of conduct.

From the reports I have been given by some who have followed me they have told me I was identified to community watch progras as a person to give a hard time to. I know in my own life I am an aging author living alone and in poor health working on a book about history while have been slandered and discredited.

This is the work I have been invovled in and it is presidential history. I find no fault with its content but I have found others do find fault with it and want my and the books harrassed and discredited.

Jen Moore found deceased before expressing for her life gave a similar account. She is listed on the cover of one of the main family accoutns as my co-author of my family history.

> So I received some phone calls after that And I'm not going to go into all the details of that case yet but I received some phone calls after that by some trusted sources who uh told me after a couple months of kind of laying in laying down [shaking in fear she reports frequently] in extreme fears my PTSD um trapped my body in a freeze position who told me "**Get out Get out now because they're going to finish the job**." So uhm **the warning that I got *during* the assault**
>
> uh was that number one these guys were waiting lying [in wait] away from me They knew my name. **And the warning that I got for them was that I better keep my effing mouth shut and better stop talking to anybody**.
>
> So you know **heard loud and clear** to me.
>
> **But you know I had a determination to make at that time. Um this has been going on for years with other things and I just couldn't stand by anymore. I was just so sick of being silenced** and I knew that my own PTSD was a result not only the the trauma and the the things that I had witnessed [as a police detective] part of it **but the majority of it was from being hunted** [and threatened during the assaults].
>
> From being a whistleblower. **From retaliation from threats um from lies and smears** and the all the different things you've heard that they do to those of us who stand against corruption especially [corruption] within the justice system.
>
> Those of us that are the most trusted often times the ones that win all the awards you get to a certain point and um uh you either turn a blind eye or you know all hell breaks loose And that's happened to many many people thousands of people.
>
> And so I had a choice uh last summer or not really a choice I was told like get out get out now. And because I had been helping this one YouTube channel um a whistle-blower and many people know who that is my only thought process was well where am I going to go hide? They you know I've been trying to hide for years and they find me wherever.

> -- End Jen More in her own words

At 2 minutes she explains a criminal network of slander and frame jobs and "entrapments" is attacking whistle-blowers and is covering up the Donegan family story that she (and myself Ed Donegan) are telling while experience death threats and violent attacks premised on the slander or in parrellel with the slander. She like I assert the Donegan family biography are part of concealing the details going back the the Kennedy Donegan families all the way into Dorchester and 1926. It was actually part of *hidden identities* [all through life since birth] in the USA and children in preschool McMartin in California and Franklin Nebraska Boystown deaths have surrounded. This illegal covert operation is of subversion conspiring against biographers of this history with baseless allegations.

You can see for yourself our narraitive is is serious attempt at autobiography of what is by multiple established credible acounts a CIA and OSS World War 2 and Cold War family with close connection to events in history. *Dynastic Successions: The CIA in Control of US and Other Presidencies* is a political, historical, and autobiographical work by Edward Paul Donegan. The book argues that hidden intelligence networks, especially connected to the CIA and Cold War covert operations, shaped American and foreign presidential succession, foreign policy, and public historical narratives.

I need assistance determining which incidents are independently verifiable, who may be legally responsible, what records should be preserved or requested, whether any filing deadlines remain open, and whether the evidence supports civil-rights, personal-injury, housing, impersonation, stalking, or related claims.

I consider my book of firsthand Cold War family accounts Domestic Truther and how the CIA controlled the presidency in the US and other nations through assassinations and the continuing truth is continuing cover-ups are still leaving journalists and whistleblowers and vetters of the candidates for US President dead, deceased before their narratives underway ever fully gained traction within the press.

The work of mine combines memoir, conspiracy theory, Cold War history, intelligence criticism, and political interpretation. It builds on themes associated with Col. L. Fletcher Prouty, John Stockwell, John Pilger, Ted Gunderson, William Colby, Mark Lane, and other critics of covert power.

Major subjects include the Kennedy assassinations, MK-Ultra, McMartin Preschool, Franklin, Nebraska, Indonesia, Barack Obama Jr., George H. W. Bush, Richard Nixon, the Von Trapp family, Cold War anti-communism, behavioral research, media control, and alleged covert management of political families.

Donegan presents the book as both historical argument and personal witness statement. Its central thesis is that official history omits a hidden layer of intelligence-directed family placement, political grooming, covert research, and narrative control.

The practical implication of the book is a call for renewed investigation of presidential history, intelligence secrecy, media narratives, birth records, political violence, and covert institutional influence over democratic government.
